2. To avoid fire and shock hazard, plug the appliance directly into a 120V AC electrical outlet.
3. If the filter is covered by a bag when shipped: remove plastic bag before use.

CORD AND PLUG INSTALLATION SAFETY INSTRUCTIONS

The length of the cord used on this appliance was selected to reduce the hazards of becoming tangled in or tripping over a longer cord. If a longer cord is necessary, an approved extension cord may be used. The electrical rating of the extension cord must be equal to or greater than the rating of the air purifier. Care must be taken to arrange the extension cord so that it will not drape over the countertop or table-top where it can be pulled on by children or accidentally tripped over.
